1 - PROFILE

Full Stack and Mobile Developer, working with React Native, with over 3 years of experience in the javascript ecosystem.

Professional experience in a variety of technologies, including **TypeScript**, **SQL**, **GraphQL**, **React Native**, **React**, **Tailwind** and **PHP**.

Chose to pursue a career in programming while pursuing a degree in computer engineering, believing in the power of programming to solve problems. If there's a logistical/business problem, there's certainly a solution using programming, aided by logic, and that's why I'm passionate about the field.
